INTELLIFIRE PLUS IGNITION SYSTEM AND WIRELESS CONTROLS

The Intellifire Plus Ignition System is an "intelligent" control system providing energy conservation and the comfort of a roaring fire, all at your fingertips! Intellifire Plus features intermittent pilot ignitions (IPI) allowing you to conserve fuel and money when the fireplace is not in use. In addition, the system offers seamless transition from AC to battery backup in a power outage, as well as built-in safety features and memory settings. Lastly, our new Intellifire Plus remote control provides stylish and fully features benefits that make controlling your heat easier than ever.

INTELLIFIRE PLUS RC300

Incorporates an LCD screen, intuitive menus and large control buttons in a sleek and modern design. This wireless control gives you the flexibility to use as a remote only or mount on the wall anywhere in the room.

MODEL: RC300-HNG

Features: Pilot Activation, ON/OFF, Flame Height, Fan Speed, Room Temperature, Readout, Thermostat Mode & Wall Docking Station.

Dimensions shown above are in millimetres. Reference dimensions only. We recommend measuring individual units at installation. Assume the use of 10mm plaster.

**NOTE:** Combustible materials should not be installed over the face. Make sure you do NOT cover the decorative door opening.

Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserve the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not the true representation of the fireplace and/or flames.
