

ENCLOSED GAS  
HEAT&GLO  
No one builds a better fire

MEZZO

You've never experienced modern design like this. Clean. Discreet. Luxurious. In 3 sizes, with a see-through model also available. Define your design with a variety of finishing options. We spared nothing, to give you everything. It's modern design, redefined.

Details matter. Every corner, every edge and every element of the MEZZO is all about perfection. Flames, lights, reflections and warmth combine to elevate the senses. A black glass interior adds depth and intensity to the fire. So captivating, we dare you to take your eyes off of it.

**FLEX HEAT REGISTER**  
Redirect the warmth with a flex heat distribution system, ending in this sleek and discreet vent register.

SLR-X

Warmth, ambiance and chic contemporary detail. An experience only the SLR-X can provide. A linear design and long ribbon flame form a broad, hypnotic firescape. Several finishing options create a fundamentally modern look for any space while a standard fan circulates the heat.

Reap the benefits of form and function. Clean lines and elegant ambiance never go out of style. Create a mood so cool, it's hot. A reflective glass liner radiates the fire and intensifies the flame.

### 3X

With its slim profile the 3X model fireplace offers a variety of installation possibilities with innovative venting options. Featuring a stunning high definition log set and LED ember accent lighting the 3X is a compact and versatile heater that will suit any living space.

Utilizing only a 21mj gas input, the 3X is the ultimate economiser and is ideal for apartments, hotels, homes, townhouses, office reception areas, boardrooms, where conventional chimneys cannot be constructed.

#### FEATURES

- High definition log set
- LED ember accent lighting
- 3 speed fan for powerful convection heating
- Intellifire remote for flame height, fan speed and LED light functions
- Optional glass liners for a deeper firebox appearance.
- Top or rear balanced flue venting for versatile installation
- Zero clearance installation
- Available on natural or LPG gas

5X

Classic sleek lines and an impressive flame, the 5X model fireplace has become one of Australia most popular. Similar to its smaller 3X counterpart the 5X model offers the same stunning aesthetic but in a bolder more powerful chassis. Available with two front options, the Firescreen front for that classic look or the Clean Face front for a discreet flush appearance the 5X model offers a timeless aesthetic.

FEATURES

- Two front options, Firescreen or Clean Face
- High definition log set
- LED ember accent lighting
- 3 speed fan for powerful convection heating
- Intellifire remote for flame height, fan speed and LED light functions
- Optional glass liners for a deeper firebox appearance.
- Top or rear balanced flue venting for versatile installation
- Zero clearance installation
- Available on natural or LPG gas

6X

The 6X model is the latest incarnation of Heat & Glo’s original flagship fireplace and is the standard bearer for the X Series range. Offering the same sleek design as the 3X & 5X models the 6X has all their additional extras included as standard as well as a high spec anti reflective glass giving you no reflection, all fire.

FEATURES

- Anti-reflective ceramic glass gives the appearance of an open fire
- Two front options, Firescreen or Clean Face
- High definition log set
- LED ember accent lighting
- 3 speed fan for powerful convection heating
- Intellifire remote for flame height, fan speed and LED light functions
- Glass liners for a deeper firebox appearance offered as standard
- Top or rear balanced flue venting for versatile installation
- Zero clearance installation
- Available on natural or LPG gas

i30-X INSERT

The ultimate insert for your existing fireplace, the i30-X features all the benefits of balanced flue technology and efficient space heating with a stunning high definition log set.

Dual flexi flues ensure a simple installation with one flue drawing air from outside for combustion and the other flue expelling the fumes.

This completely airtight fireplace allows for brilliant indoor air quality.

Choose from a range of décor finishing options including 3 & 4-sided black trims or a range of mantelpiece and fascia options to suit either a traditional or contemporary aesthetic.

The i30-X can also be built into brick or hebel as a new fireplace application.

OPTIONAL EXTRAS INCLUDE:

- Ambient accent lighting
- Glass reflective liners
- Brick refractory liners

### I30-X FREESTANDING

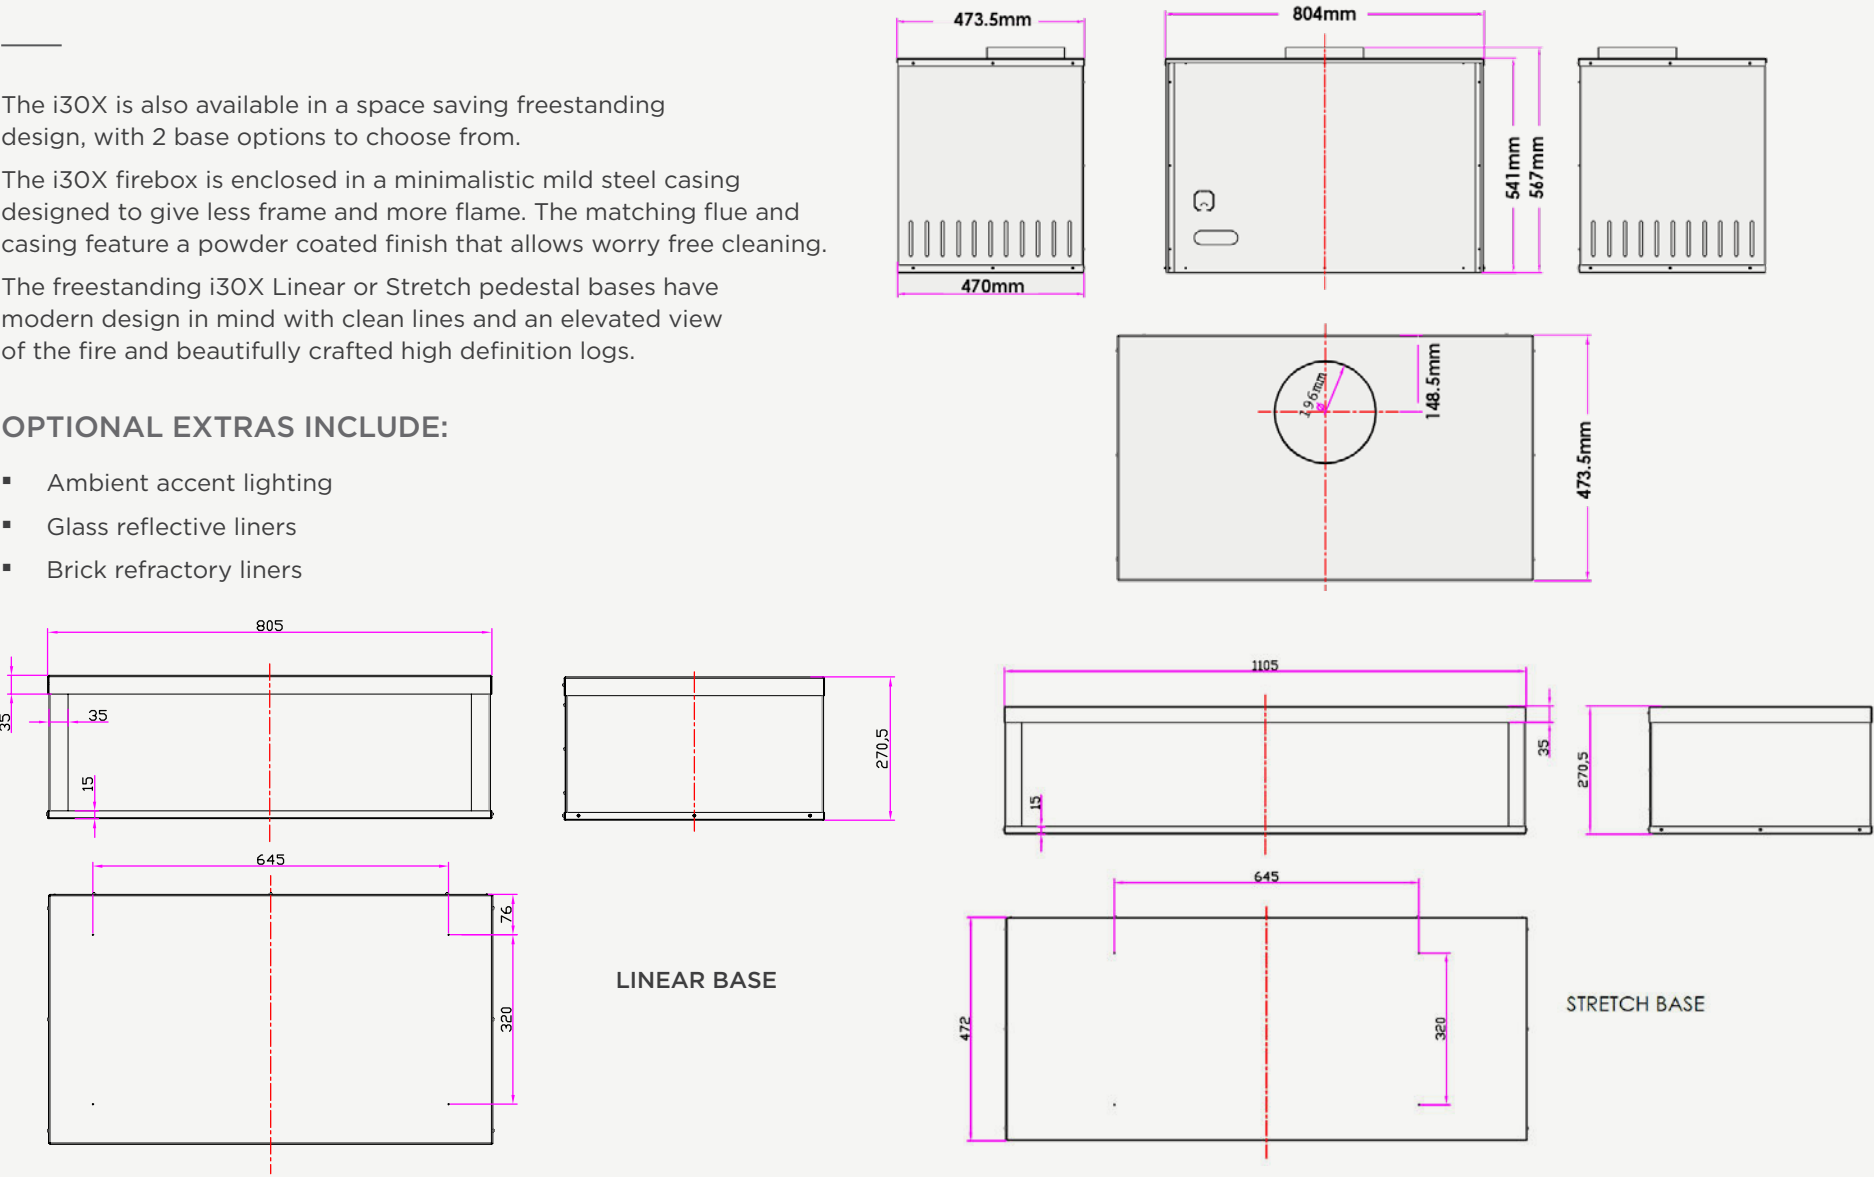

The i30X is also available in a space saving freestanding design, with 2 base options to choose from.

The i30X firebox is enclosed in a minimalistic mild steel casing designed to give less frame and more flame. The matching flue and casing feature a powder coated finish that allows worry free cleaning.

The freestanding i30X Linear or Stretch pedestal bases have modern design in mind with clean lines and an elevated view of the fire and beautifully crafted high definition logs.

#### OPTIONAL EXTRAS INCLUDE:

- Ambient accent lighting
- Glass reflective liners
- Brick refractory liners

## VRTIKL

Slender & sophisticated. At home uptown, downtown, and everywhere in between. Define your style with distinctive finishing combinations. The VRTIKL takes a whole new approach to functional modern design.

### FEATURES

- Available in Natural Gas or LPG
- Top or rear venting for installation flexibility.
- High definition log media
- Intellifire Plus electronic ignition.

VRTIKL	479	1025	403	470 x 877	N - 27   L - 25	75%	N 5.6 L 5.2

Dimensions are in millimeters. Reference dimensions only. We recommend measuring individual units at installation. NOTE: Combustible material should not be installed over the face. Make sure you do NOT cover the decorative door opening. Refer to installation manual for detailed specifications on installing this product. Heat & Glo reserves the right to update units periodically. The flame and ember appearance may vary based on the type of fuel burned and the venting configuration used. Pictures in this brochure are not a true representation of the fireplace and/or flames.

## X-SERIES FREESTANDING

Our Heat & Glo 3X & 5X models are now available in a compact, efficient freestanding option.

Delivering all the key features of the Heat & Glo X-Series range, the freestanding models can be wall hung, floor or stand mounted making installation easy.

Providing more flexibility to suit a wide variety of living spaces, the X-Series Freestander range delivers premium style, performance and quality that set Heat & Glo fires apart.

# HEAT&GLO®

Heat & Glo is fuelled by innovation and driven to prove “No One Builds A Better Fire.” The brand was founded in 1975 in a small Minnesota garage by brothers Ron and Dan Shimek. In 1987, Heat & Glo introduced Balanced Flue technology—forever changing the way fireplaces function.

Much has changed since the beginning. Yet much remains the same. One part innovation. One part application. With an eye toward design and innovative technologies, Heat & Glo continues on an endless pursuit; pushing the boundaries of where fire can go and how it can look.
