HORIZON
FIREPLACES

Nothing completes your home quite like a Jetmaster fireplace, Australia's market leader in gas fireplaces and wood fireplaces. For over 30 years we have been committed to revolutionising gas fireplaces combining superior heat efficiency and beautiful design.

This is exemplified in the Horizon range that was introduced in 2005. These stunning decorative gas fires symbolise Jetmaster's commitment to offering the best in gas technology.

A defining feature of the Horizon range is the floating burner, hidden controls and stylish slimline design. Plus a high gas input which means more flame, more glow and inviting radiant heat. The range comes in a choice of pebbles, logs or coal, with an amazing range of finishes.

CANTILEVER

The Horizon Cantilever features a low profile design, ensuring a stunning presence in your home.

Horizon fires with their power flue option can be installed into an apartment or home where a vertical flue is impossible to install. The Horizon Cantilever features a low profile design, ensuring a stunning presence in your home. It offers the radiant glow and ambient warmth of a real fire. Cantilevered off the wall to create a stunning feature, the Cantilever 700 or 1100 logs, coal or pebble with its hidden gas control technology will make the perfect centrepiece fireplace feature.

FEATURES

- Iron bark log pebble or coal effects
- Hi flame contemporary burner
- Design can be modified to suit a range of design applications
- Four sizes available, 700, 1100, 1500 & 2000.
- Provides radiant warmth
- 55mj and 65mj gas input
- Electronic ignition
- Available in NG and LPG
